

The Taylor Gazette

Volume 258

August 2 — 15, 2020

Dear Taylor Community,

This pandemic has presented us with many unprecedented situations. In March, we prudently shut down our campus, doing our part to help flatten the curve here in NH. We enhanced our infection control measures, secured large amounts of personal protective equipment, implemented regular COVID-19 testing as soon as it became available to us, and made difficult, proactive decisions to counteract the financial stresses of this pandemic. We recognize our critical role in keeping our residents safe and our organization fiscally strong.

A particularly challenging part of this pandemic has been the continued isolation of our licensed building residents. While we continue to follow the guidelines set forth by the State of New Hampshire, we recognize the unintended, detrimental consequences of continued isolation, both on our residents and their loved ones. Please know how heavily this weighs on us, too. There has to be a compromise in the future that allows for much needed personal connection with loved ones and we are committed to helping make that happen for you.

Quite simply, no one has a road map for this crisis. Collectively, we are grappling with how best to protect our most vulnerable population while also recognizing that the current model is not sustainable. Please know that Taylor Community is at the forefront, advocating for reasonable compromises that meet the needs of our residents and their families.

My thanks to all for your continued patience and understanding.

Be safe, wear a mask, and please keep washing your hands.

It's Been HOT... Are You Staying Hydrated?

With the heat this summer, it is so important to remember to keep yourselves and your loved ones hydrated.

Older adults are more susceptible to fluid and electrolyte imbalances. With age, the body's ability to conserve water diminishes, as does our sense of thirst. And certain medical conditions also can affect the ability to retain fluids.

Thirst is not usually a helpful indicator; a person who feels thirsty may already be dehydrated. Initial signs to look for included headache, constipation, muscle cramps, dry mouth and tongue, and sleepiness or lethargy. Some more severe dehydration symptoms include infrequent or no urination, dark urine, irritability, dizziness or confusion, low blood pressure, rapid breathing and heartbeat, weak pulse, and cold hands and feet.

In preventing dehydration, a good rule of thumb is to try to balance fluid intake with output, and special care needs to be taken if one is ill with fever, diarrhea or vomiting.

Generally, 64 ounces of fluid intake is sufficient, and most fluids count towards that, excepting alcohol. Some foods do too, like broths, milkshakes and smoothies. Many foods also have high water content: cucumbers, tomatoes, melons, bell peppers, grapes, berries and more.

Always keep good contact with your physician; some medical conditions may require intentional restrictions of fluid intake.

Proper Body Mechanics for Gardeners

It's important to keep proper body mechanics in mind while performing gardening tasks, such as raking, pulling weeds, lifting heavy bags of soil, etc. Having good body mechanics will decrease the risk of injury.

Here are some tips to help limit that risk.

- Take 5-10 minutes before and after you garden to warm up the muscles and stretch. Stretch the major muscle groups such as hamstrings, quadriceps, back and shoulders.
- Change your body positions frequently and take breaks.
- Avoid repetitive bending and twisting which could increase strain on your muscles and joints.
- Get close to your task and use a pad if kneeling.
- When lifting, bend at the knees leading back with your hips and pull your belly button to your spine to decrease overuse of back muscles.
- Drink plenty of water throughout the day.

Staff Spotlight — Genesis Rehab

Joshua Brooks

Physical Therapist Joshua Brooks has lived in the Lakes Region for 40 years (20 in Laconia), and has 20 years of Physical Therapy under his belt. Joshua's extensive orthopedic experience bridges the lifespan, from his youngest patient 2 months old to those into their 100's. He has in the past worked for Lakes Region General Hospital (17 years) and more recently in private practice (9 years). Joshua and his wife of 21 years live in Laconia with their two daughters. One is a recent graduate of Laconia High School and is now in nursing school at Sacred Heart in CT, and the other entering the 11th grade.

Trained at Notre Dame College in the 6-year Master's program, Joshua received his degree in the first class of the first NH-based Physical Therapy program. A two-term state chapter President of the American Physical Therapy Association, he traveled to D.C. to meet with legislators for Physical Therapy related events. Joshua also served in the U.S. Army Reserve, first as a Pharmacy Technician for 10 years reaching the rank of Sergeant, afterward for another 16 years as a Physical Therapist medical officer attaining the rank of Major. His combined 26 years of service included a 2013 deployment to Honduras for 9 months where he served the rehabilitation needs of 600+ soldiers stationed there as well as local nationals who lived at Centro de Rehabilitacion Integral Comayagua. He also served as a Physical Therapist in Germany at Landstuhl Regional Medical Center, treating service members injured in Iraq and Afghanistan, as well as time at Fort Polk in Louisiana.

Joshua has worked extensively with local providers, including orthopedic surgeons, to serve the needs of this local community. He's attended orthopedic surgical and medical procedures including joint replacements, spinal injections, and joint repairs, and has a collegial relationship with all local providers and many in the Concord area after two decades of service.

Joshua has been very involved in youth sports in the past, as a coach and local provider. He coached soccer, basketball, youth baseball, and lacrosse, and provided care for local high school injured athletes for many years on the sports field itself during local games.

With a love for helping people, through Physical Therapy Joshua uses his skill, positive energy and enthusiasm to help others in their physical needs. Joshua says he does not simply work as a Physical Therapist but "is" a Physical Therapist.

When not on campus working with Taylor Community you may find Joshua and his wife walking their dog on Elm Street, or Joshua hiking in the White Mountains. He enjoys long distance cycling and hiking; he recently completed a 34-mile hike called the Pemi Loop and has completed three 20-mile Presidential traverses. This month he completed hiking all 5 Vermont 4000-foot mountains in a single day!

Staff Spotlight — Facilities Maintenance

Dylan Prefontaine

With 57 apartments, 154 cottages, 3 private homes, and 3 commercial buildings, there is an unbelievable amount of maintenance painting that is necessary to keep these properties looking their best. In 2015 when I started, we began the process of rebuilding this component of the Taylor Facilities operation.

While complaining about poor work conditions, lack of leadership and future potential after work one day, Dylan's friend Seth told him he should check out Taylor Community... it is a friendly place to work and one which encourages the growth and development of their employees. Thankfully, Dylan followed up on this great advice and became a Taylor employee.

Dylan joined our team as a painter in training last year, and immediately he felt like he found a home. Between two good mentors — Johnny Miller and Seth Hough — he quickly learned the ropes. Leaving his previous noxious employment behind (metal polishing and cleaning), Dylan fit in with the staff, residents and the work load, and found that he really enjoys painting...thank the Lord!

Originally from the Laconia area, he has never really left his roots... although he does like the Bahamas and would like to go back as often as he can afford. Dylan is engaged to his sweetheart, Courtney Mercier, who is the daughter of one of our senior carpenters, Jamie Mercier. Small world!

Together, Dylan and Courtney have a 1-year-old boy who is the joy of their life.

Please welcome Dylan and his family to the Taylor Community and say hello when you see him out and about... he is one of the three guys wearing white pants!

Taylor Home and Ledgeview Resident Visits

Window Visits and
In-Person Outdoor Visits

Both through-the-window and in-person outdoor visits are being coordinated by Becky Cartier (Taylor Home) and Diane Poh (Ledgeview). Dedicated areas are set up for each type of visit at both buildings, with seating and tents erected for shelter outside.

Window Visits are scheduled Monday and Thursday mornings from 9am—Noon; and Wednesday and Friday afternoons from 1—4pm, with 20-minute visits scheduled each half hour. The ten minutes between visits are used to sanitize the phone and the resident area inside, and to bring the next resident in for their visit.

A maximum of four visitors is allowed, and we must have all names in advance to provide security at the gate as temperature/symptom checking will be required. Please wear a mask.

In-Person Outdoor Visits are scheduled on Tuesdays, but with different guidelines. No more than two visitors are allowed and they must be over the age of 12. Pets are not allowed, and all visitors must be monitored by a staff member at all times. Residents and visitors must stay at least six feet apart, wear a mask at all times, and there can be no physical contact.

We will expand availability of in-person visits as we are able, and appreciate your patience as we work to get this process running smoothly.

Scheduling is done via email. Please contact Becky for Taylor Home residents at bcartier@taylorcommunity.org or Diane at dph@taylorcommunity.org for Ledgeview residents, listing a few date/time options that might work for you. Your visit will be confirmed via email, and is not certain until you receive this confirmation.

Please do not visit if you have any symptoms; security at the gate will turn you away if you have any symptoms or a temperature over 100 degrees.

On the application for your Absentee Ballot, simply check "I am unable to vote in person due to a disability."

If you would like a form to request an Absentee Ballot, please contact Brenda at bkean@taylorcommunity.org or 366-1226. Lake Winnisquam... Another wonderful tour!

It was another beautiful day on Winnisquam Tuesday, July 21. We were glad to help Taylor resident Barbara Zeckhausen celebrate her birthday with muffins, and had a lovely tour courtesy of Captain David King, who navigates the water beautifully, allowing us to enjoy all the lake has to offer. The water was calm and the air was refreshing — so unlike the humid weather of the last few days! The group saw plenty of wildlife — geese, loons, cormorants, ducks, seagulls (or are they "lake" gulls?). We even had a loon fly overhead calling to its mate. Such a wonderful opportunity!

*Happy
Birthday,
Barbara!*

Sail with the Gundalow Company
Mon., Aug. 17 and Wed., Aug. 26 at 10am

For centuries, gundalows connected up-river Seacoast towns to Portsmouth, the region's seaport and primary market town. Harnessing the wind and riding the tide, the sailing barges moved bricks, hay, firewood and good crucial to the economy and everyday life. The Gundalow Company in Portsmouth celebrates this history protecting the Piscataqua region's maritime heritage and environment through education and action.

A full-scale replica of the last commercially operated Gundalow – the Capt. Edward H. Adams, built in 1886 – was constructed in Portsmouth in the 1980s. A second, named Piscataqua, after the river, was constructed in 2011 after a five-year fundraising and planning effort.

Operated by the nonprofit Gundalow Company, the Piscataqua provides sailing excursions and dockside programs up and down the Piscataqua River and around Great Bay.

Participants will enjoy a picnic lunch prior to departure with the option of Quiche or Fried Chicken. Tickets are \$30 per person. Bus pickup begins at 10am.

Resident Survey? Some folks have asked, and yes, it's time for another. Surveys are usually conducted every other summer, and the current one has been a bit delayed due to COVID. A Concord mailbox will be arranged to collect the surveys, and then they'll be sent out. Stay tuned!

Laconia Public Library Book Club

Fri., Aug. 14 at 10am

Brenda has been working with Shayla Locke from the Laconia Public Library (LPL) to re-establish this club. The chosen book is titled *Becoming Mrs. Lewis*, by Patti Henry. Because of the difficulties obtaining a sufficient number of any one title from inter-library loans during these "COVID" times, we have been unable to meet, until now. Shayla has proposed using eBooks for our Book Club. This can be done free of charge through the library using "Hoopla." Shayla has created a video to show you how Hoopla works, and how to download free eBooks, audiobooks, comics, movies and TV shows from the LPL collections. In working to identify a start date for the book club, Friday will work best as the Library is closed and Shayla will be able to meet with us at the Pavilion for book discussions. If you would like to join this eBook Club, or have questions, please email or call Brenda at bkean@taylorcommunity.org or 366-1226. Here is the instructional video link for Hoopla:

Thurs., Aug. 13 – **Opera: Wagner — Der Ring Des Nibelungen: Das Rheingold** – Elizabeth Peyton's *Wagner* was 2nd in the 4-part series of exhibitions celebrating the Met's new Ring cycle, coinciding with the premiere of *Die Walküre*. The artist created new monotypes and drawings based on the characters from the Ring and loaned two existing portraits of Wagner's patron, King Ludwig II of Bavaria. The exhibition's nearly 30 works extended beyond the gallery and onto other levels of the opera house, a first in Gallery Met history. "There is a sound of human emotions that *Wagner* captures that is so heartbreaking," said Peyton, who immersed herself in the Ring, *Tristan und Isolde*, and *Tannhäuser* recordings while creating the works that appear in *Wagner*. "It's a challenge to embrace *Wagner* as a human being—not as hard to embrace him as an artist. To make a narrative so transcendent is a gigantic feat, and the music is so mindblowing." 2:23 https://www.youtube.com/watch?v=3ZP_yXsNV2E&list=PLN33ylo_Gi0dNHan9-Zvhwltn37CDp7Xd&index=4
